Art Unit: 2823

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 1, 2, 4-7, 14, and 15, are rejected under 35 U.S.C. 102(e) as being anticipated by

Ono.

The rejection is maintained as stated in the Office Action mailed 6-6-01, and as stated below.

Applicant argues that Ono does not disclose trimming the gate because it does not altering the electric characteristics of the gate. However, Ono teaches that the characteristics of the gate do change (Column 4, lines 31-33). Furthermore, the characteristics inherently change because the gate is being made smaller.

Applicant argues that Ono's oxide CVD layer is not intended or alleged to chemically react with an electronically significant portion of the gate. However, Ono the claims are not so limited.

Applicant argues that Ono's nitride layer does not trim an electrically significant portion of the gate. However, the claims are not so limited.

Claims 8-10, and 17, are rejected under 35 U.S.C. 103(a) as being unpatentable over Ono as applied to claims 1, 2, 4-7, 14, and 15 above, and further in view of Moslehi et al.

The rejection is maintained as stated in the Office Action mailed 6-6-01, and as stated below.

Applicant argues that Moslehi et al does not teach trimming films with a thickness in the range of 10 nm to 100 nm. However, the claims are not so limited.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
